

# Experience the Edge - Moldova

March 20 -April 4, 2011

Experience the Edge is for those who know that there must be more to outreaches, and specifically want to experience and be trained on-site in pioneering situations for DTS outreaches.

We will spend 2 weeks on-site:

- Tasting, Seeing, Doing, Training, Evaluating
- Opening up the Possibilities for DTS Outreaches
- Catching new Vision from God's Heart
- Exploring the Land
- Taking Action
- Experiential Training on New Ground with other DTS Outreach Leaders
- Releasing more Pioneering and Apostolic Leaders

If you want to Experience the Edge of outreach, and have your passion, faith, vision and skills grow, join us for 2 intense weeks on location in Moldova. You will receive training and equipping in leading fruitful and effective outreaches in a nation that has yet to see YWAM established. You will also learn how to use DTS outreach teams in helping to pioneer new ministries, and what it takes to scout out the land, understand the potential and move forward where people haven't gone before. Don't just read the stories of the past, dare to live and lead on the edge!

**Fact of Interest:** Moldova has the highest rate of Human Trafficking happening all over the world. As a result of this injustice, thousands of young children and families have been left behind. Surely God has concrete things on His heart to respond to this horrific issue. We desire to find out more about this and how we can respond during this time.

Leadership: Aimee Haase & Lisa Whitaker (International DTS Centre)
